iDSI approached by low and middle-income governments and funders to identify how we can support

We explore current policy and clinical practice with local partners and jointly identify solutions

We empower local partners to work together, breaking down silos that can occur between stakeholder groups

We visit countries to build relationships with trusted local partners and key decision-makers

We deliver training workshops that can be applied to a real world problem; with ongoing support and coaching*

We support visits, placements or internships for practitioners and decision-makers from LMICs

We embed advisers to engage with and broker between local groups

We ensure policies are EVIDENCE INFORMED and fair

We encourage LOCAL OWNERSHIP and capacity

We strive for LONG-LASTING SOLUTIONS and in-country capabilities

*Training the Health Benefits Package committee in Kenya on Health Technology Assessment skills
Training community healthcare staff in India to implement evidence-based guidelines for diabetes and hypertension
